**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species:

Species I: Fig. 1,2

Species II: Fig. 3,4

Species III: Fig. 5

Species IV: Fig. 6,7

Species V: Fig. 8

The species are independent or distinct because Species I shows the lower cross members and the lateral posts of a pair of frames from a window sash and a window casing.

Species II shows the lower cross members and the lateral posts of a pair of frames from a window sash and a window casing with an alternative embodiment. The frames are constructed with a metallic profiled element, which is fixed to the metallic skin of the first frame. This metallic profile surmounts the region occupied by the second gasket, so as to protect against the rain.

Species III shows the frame of a matchboard shutter.

Species IV shows a slat shutter frame.

Species V shows a frame for a shutter, which is constructed with a metallic skin as well as a metallic lamina covering the perimeter edge of the frame. This lamina

Art Unit: 3635

includes sawtooth-shaped, longitudinal tabs, which are inserted into slots in the frame structure.

The different species of the invention would cause a burden on the office, requiring a different search for each specified species. The different searches would fall into different subclasses and/or require different text searching.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
